## University has first partner in joint corporate venture

By Lisa Eisenhauer  
Staff Writer

Allen Industries' auto parts plant in Herrin has become the University's first partner in a joint agreement with a corporation, officials announced Tuesday.

During the three-year agreement, which is already in effect, students and faculty will be sent into the plant to analyze ways to improve operations and make the plant more competitive.

In exchange for the University's aid, Thomas Gutteridge, dean of the College of Business and Administration and project

director under the agreement, said Allen has agreed to donate \$100,000 in acoustic equipment to the University, join the associates program of the College of Business, consider providing other academic support such as scholarships and pay for the costs of programs that grow out of the agreement.

Under the associates program, he said, companies agree to donate at least \$200 to COBA in return for support services such as business consulting.

Thomas Chisholm, president and chief executive officer of Allen, said the company

sought the University's aid to help make it more attractive to Japanese car manufacturers, one of which is opening a plant near Normal.

Many foreign auto manufacturers are bringing supply companies with them when they locate in the United States, Chisholm said, making survival in the industry a challenge.

"Before we can accept that challenge we have to do all we can to become competitive," he said.

A mutually beneficial agreement with SIU-C was

## Bald eagles raise young in local refuge

By Brett Yates  
Staff Writer

People rarely see bald eagles in Southern Illinois during the summer, but two pairs have nested and are raising their young in the Crab Orchard National Wildlife Refuge.

Susan Bolander, refuge manager trainee, said they are the only two confirmed permanent bald eagle nesting sites in Illinois. While one of the eagle pairs is located within the restricted area of the refuge, visitors may observe the other pair, which has

nested on Crab Orchard Lake's Grassy Bay. The couple are nesting in a willow tree and are raising an eaglet which hatched in May.

Visitors may reach Grassy Bay by driving six miles south from Route 13 on the Crab Orchard Spillway Road and turning left on a road marked 525 E. In the bay, a line of signs designates the restricted area of the lake. Visitors caught trespassing in the restricted areas will be fined \$50.

The eagles' nest is on the other side of the bay and can be seen with a telescope or pair

of binoculars.

The mother is about four years old with a white spotted face and a light colored breast.

The father has the classic look of the white head and dark brown body. Bolander, who has been observing the eagles, said the father has seldom been seen lately and the mother has been guarding the nest.

The eaglet is grey and about the size of a small chicken. Bolander said she expects it will begin to fly by mid-

## Presidential perks focus of Senate study

By Catherine Edman  
Staff Writer

Acting Chancellor James Brown has asked the presidents of the SIU-C and SIU-E campuses to respond by July 1 to an IBHE request for reports on spending on the presidential homes.

The Illinois Board of Higher Education has asked for the information at request of a State Senate subcommittee that will investigate spending on state-provided homes of university presidents and chancellors for the past four years.

The Senate panel, which includes Sen. Glenn Poshard, D-Cartersville, is expected to begin a probe of spending on these residences in mid-July. The IBHE report is to be delivered to the subcommittee by Aug. 1.

The study was prompted by disclosure of spending subcommittee chairman, which Sen. Patrick Welch, D-Peru, called "excessive" on remodeling of the home of the Northern Illinois University president.

NIU President Clyde Wingfield resigned in May in wake of a controversy over spending on the residence and his removal of Jerry Thompson, director of the student newspaper, which had reported on the expenditures.

On the basis of what the subcommittee uncovered at NIU, they decided spending for all state universities presidents' and chancellors' residences should be examined, said Pat McGuckin, spokesman for Poshard.

The SIU system will be included in the Senate investigation as well as the University of Illinois and the universities in the Board of Governors and Board of Regents systems.

The Board of Governors universities include Chicago State, Eastern Illinois, Governors State, Northeastern Illinois and Western Illinois.

Universities under the Board of Regents include Illinois State, Northern Illinois and Sangamon State.

McGuckin said senators from districts with state universities will probably be involved in the subcommittee as it "goes on the road" to the universities to conduct the investigation.

The subcommittee will look at the spending in more depth than the IBHE study, McGuckin said.

"We don't want to leave any stone unturned," he added.

The IBHE will also look at private foundation money for presidential "perks" and the amount of money used for entertainment by the presidents, according to information from Welch.

Ross Hodel, associate director for fiscal affairs of the IBHE, said the IBHE will make recommendations for changes if they are found to be necessary to prevent situations like that at NIU.

Stated in the report filed by the NIU subcommittee is a request that the study "include recommendations for statutory changes which would promote greater control over the type of expenditures in question."

The survey sent to the universities asks them to provide governing board or university policies regarding president and chancellor residences along with the remodeling and renovation policies. A historical perspective of each house, total square feet, division of public and private quarters, land description and total estimated market value also are to be given to the IBHE.

Funds spent on repair and maintenance, custodial services, grounds maintenance, utility production, permanent improvements, security and other operations and maintenance for the residences have been requested.

For each of those categories, a summary of staffing requirements for the residences has also been requested.

The universities must provide the IBHE with a breakdown of expenditures by source of funds. State appropriated funds, nonappropriated university funds and specified other funds are to be reported.

## Senate approves historic tax reform, 97-3

WASHINGTON (UPI) — The Senate easily approved a historic tax reform bill Tuesday, virtually guaranteeing Congress will complete this year the most sweeping rewrite of the nation's tangled tax code since World War II.

Passage of the bill by the Republican-led chamber came on an overwhelming 97-3 vote. The legislation now goes to a conference with the Democratic-dominated House, which last year approved its

own version of tax reform.

Both measures, hailed as the most drastic changes in the nation's tax laws since the 1940s, would curtail popular tax deductions and loopholes in return for the lowest tax rates in about a half century. They would also raise business taxes to help pay for lower individual rates and take about 6 million poor people off the tax rolls.

The Senate bill would exchange the current 14 individual tax brackets in return

for a two-rate scheme of 15 percent and 27 percent. The House measure, however, has a four-rate structure of 15 percent, 25 percent, 35 percent and 38 percent, along with a number of other major differences.

When the Senate and House try to reach a compromise on the bill, fights can be expected not only over the tax rates, but over the sensitive deductions, such as those for individual

retirement accounts that would mostly be gutted by the Senate measure. They would be kept intact by the House.

President Reagan, who has made an overhaul of the tax code his top domestic priority, was exuberant after the vote and said he hoped a bill could become law "by Labor Day."

"This is a great day for America," noted Reagan, adding, "The Cinderella team came out on top."

## Britain awarded \$10 million for research of 'Star Wars'

WASHINGTON (UPI) — The Defense Department awarded Britain a \$10 million contract for studies relating to a "Star Wars" anti-missile defense of Western Europe, the U.S. and British governments announced Tuesday. The contract to the British Defense Ministry is the biggest given to Britain under the program since London agreed in December to participate in the Strategic Defense Initiative.

## Soviet miners seal bottom of nuclear reactor

MOSCOW (UPI) — In a bid to prevent the Chernobyl nuclear plant's radioactive core from sinking, Radio Moscow said Tuesday miners have sealed the bottom of the reactor in concrete in the first stage of its final entombment. Hundreds of miners working shifts as short as 45 minutes spent almost two months tunneling under the reactor to pour a base of concrete to serve as a foundation for the containment structure to seal the reactor forever.

## 2 bombings rock Johannesburg; 22 injured

JOHANNESBURG, South Africa (UPI) — Two bombs exploded Tuesday within a 25-minute period in central Johannesburg, destroying a snack bar packed with office workers and shattering windows in a hotel shop. Hospital sources say 22 people were injured. Police said it was not immediately known what type of explosives were used in the blasts that wrecked the snack bar filled with a lunch crowd.

## Shultz OKs \$200 million in aid to Philippines

MANILA, Philippines (UPI) — Secretary of State George Shultz arrived in Manila Tuesday to sign over \$200 million in aid to the Philippines and hold talks with President Corazon Aquino. However, Aquino's executive secretary, Joker Arroyo, told reporters the "aid" actually was "rent" pledged to the ousted Ferdinand Marcos regime for the use of two strategic bases

## World Bank, IMF urged to work together

WASHINGTON (UPI) — Federal Reserve Board Chairman Paul Volcker called on the World Bank Tuesday to work more closely with the International Monetary Fund and commercial banks to promote sustainable growth in developing nations. Volcker rejected any need for increase in World Bank capital now, however. Addressing the private Overseas Development Council, he spoke of risks inherent in the World Bank's new position as a "policy-based" lender in addition to its traditional role as project lender to the developing world.

## Mexico apt to ask creditors to 'change terms'

MEXICO CITY (UPI) — Newly designated Finance Minister Gustavo Petricoli said Mexico was on the verge of asking its international creditors to "change the terms of negotiations" on servicing the country's staggering foreign debt. In his first news conference since his unexpected designation as finance minister last Tuesday, Petricoli also insisted Monday the government would pursue growth policies despite International Monetary Fund demands for austerity.

## Pershing missiles launched successfully

CAPE CANAVERAL, Fla. (UPI) — The Army successfully launched three Pershing 2 missiles Tuesday in the first fully operational test firings to verify launch readiness under battlefield conditions. The launches of the 8-ton, 35-foot-long missiles equipped with dummy nuclear warheads were the 29th, 30th and 31st Pershing 2 test firings.

## Daylight Saving Time extension approved

WASHINGTON (UPI) — Daylight Saving Time will begin the first Sunday in April rather than the last Sunday of the month under a bill passed by the House Tuesday and sent to President Reagan for his expected signature. Rep. Edward Markey, D-Mass., chief sponsor of the House version of the bill said "Congress has seen the light and now Americans everywhere will see more light." The House earlier this year passed legislation that would have started Daylight Saving Time on the first Sunday in April and ended it the first Sunday in November to allow an hour extra daylight to make it safer for Halloween trick or treaters.

# Summer brings lack of Synergy volunteers

By Toby Eckert  
Staff Writer

The City Council expressed its support Monday for a request by the city administration that a tentative decision be made to build a new \$9 million water treatment facility.

But several council members raised questions about the city's ability to afford a plant in 1992, the year which a consultant has predicted the treatment plant on South Wall Street will reach its maximum capacity.

"The question of money is something we have to be very cautious about," Mayor Helen

Westberg told council members.

Councilman Patrick Kelley, while expressing support for the tentative decision, said the council should study "what we want ideally and what we can afford." He also suggested the city develop a "fall-back" plan in case a new plant proves too costly.

Councilman Keith Tuxhorn was the only council member to oppose the decision. "Right now, I'm not convinced of the need to do it," he said.

Jack E. Foster, the city's director of water and sewer services, presented a report to the council supporting the

construction of a new plant rather than an expansion of the current facility.

Foster's report questions the ability of the existing plant to meet current and future water quality standards set by state and federal regulatory agencies.

"The existing plant has limited flexibility in meeting existing and anticipated water quality standards of the Illinois Environmental Protection Agency because of problems created by age, past expansions and limited space for future expansions," the report says.

The report adds that future

expansion of the existing facility would be "extremely difficult or impossible" due to the unavailability of land in the vicinity of the plant.

In addition, the report indicates that as a result of modifications expected in city water treatment capacities by 2012, "the project cost will be greater if the existing plant is retained at the current site than if a new plant is built on a new site in 1992."

Expanding the current site is expected to cost \$387,000 less than building a new plant. But Foster said the current site might only be usable for 20 years after expansion,

whereas a new plant could be usable for 50 years.

Councilman Neil Dillard, raising concerns about the city's "going it alone on the project," asked the city administration to explore plans to coordinate the project with other cities that may have problems meeting water quality standards. He also suggested that the city work closely with SIU-C on the project, since the University is one of the city's biggest water consumers.

City Manager Bill Dixon said the council should act on the tentative decision by July.

## Council supports request to make tentative decision on water plant

By John Baldwin  
Staff Writer

Synergy, the organization dedicated to helping people with emotional and psychological problems 24 hours a day, needs some help of its own — volunteer help, that is.

Located at 905 S. Illinois Ave., Synergy is operating with about half its regular number of volunteers and with a \$23,000 budget, about half its former budget, says Karen Hampton, administrative coordinator.

Synergy offers crisis intervention, referrals to other organizations for people who need long-term help, overnight lodging in case of emergency, and other miscellaneous services as necessary.

About 50 volunteers work on

five-hour shifts during the day and a 10-hour night shift. Recently, Synergy has closed its doors during some night shifts because of a lack of volunteers.

"I don't think we've had to close over the summer before, at least not in the past several years," Hampton said.

Hampton said she doesn't understand the reduction in volunteers this summer. Although the exodus of graduates may have contributed, she said, "That happens every summer, but for some reason it seems to be worse this summer."

People interested in volunteering should contact Synergy before Monday, Hampton said, because the summer training session is in its third week.

The session meets for seven

weeks on Monday nights from 6 to 10 p.m. during the summer term. In the fall and spring semesters, 13-week courses are offered.

Synergy hopes to get volunteers from the community as well as SIU-C students, Hampton said. Synergy offers its services to anyone in the community and is not directly affiliated with the University.

There are usually 10 open shifts every week which are covered by having volunteers work an extra shift or by having one of the four part-time employees work the shift, Hampton said.

Synergy's budget was reduced from about \$40,000 to its current status when the Illinois attorney general stopped supplying funding.

## Computer workshop slated

A two-day workshop, "Applications Using Symphony-Integrated Software," will be held July 21 and 22 in the agriculture computer lab to provide instruction on combining "Symphonies" capabilities to accomplish a variety of tasks.

The tasks include how to create, print and save a spreadsheet and word processing document combined with a spreadsheet and data base.

The workshop is open to high school and community college students. There will be 15

hours of instruction.

The \$100 registration fee includes one-night lodging on campus, four meals and 15 hours of instruction and materials. One hour of optional academic credit is available for qualified students at an additional fee.

Fred Reneau, associate professor of agriculture education and mechanics will teach the course.

For information concerning the workshop, contact Reneau at 536-7733. For registration information, contact Maire Malinzuskas at 536-7751.

## TV Garden show host to give talk

Bob Thompson, host of the public television show "The Victory Garden," will answer questions about gardening from 12:30 to 2 p.m. Sunday at the Carbondale Park District's Hickory Lodge, 1115 W. Sycamore.

Thompson will be in Car-

bondale to attend the annual meeting of the Friends of WSIU-WUSI at SIU-C to answer the public's gardening questions.

Reservations can be made at \$7.50 per person. Those interested may call (618) 453-4343, ext. 260.

## Sunset concerts are not pet shows

**DOG'S ARE MAN'S BEST FRIEND.** Dogs are faithful companions, following us through life with wagging tails and cold noses. No one can deny that dogs make people happy.

However, not everyone around here is totally pleased with dogs. Especially the ones running loose at the Sunset concerts every week. And there have been a considerable number on the loose at this weekly event.

We're not talking about a few strays that wandered into the festivities. The issue here is the dozens of dogs brought by their owners to the concerts and turned loose to run through the crowd.

**FIRST OF ALL, IT IS AGAINST THE law** to let a dog run loose anywhere on campus or in city parks. Carl Kirk of the SIU Police says that his men try to keep dogs off the campus as much as possible, and that it is not permissible to let animals run free on campus.

When there is a problem with dogs running loose, the Carbondale dog catcher is notified. Or the police will try to get the owner to remove the dog from the area, if that person can be located.

It is also illegal to let your pet run loose at Evergreen Park. A Park District spokesperson says there is a leash law in effect at all times at the park, even during Sunset concerts.

Let's be sensible, folks. Why would you want to take a dog to Sunset concert? Thousands of people attend these rather noisy gatherings. No dog could be comfortable in such surroundings.

**THERE IS ALSO THE DOG'S SAFETY** to be considered, as well as the safety of those around the animal. What if, in the press of the crowd, someone accidentally steps on the animal and hurts it? What if the animal bites the person? Avoid these possible situations and leave the dogs at home.

The Student Programming Council, which schedules the concerts, should take it upon itself to ensure that the events remain safe for everyone. The SPC should request that people leave their pets at home.

Maybe a few words to this effect are in order for the SPC's next concert advertisement, as well as a few words over the live mike before the next concert Thursday night in front of Shyrock.

These concerts are for people's entertainment and were not meant to be a pet show.

## Letters

### Sandinistas well-armed

Nicaraguan official Thomas Borge refers to people like David Christensen (whose letter appeared in the June 17 DE) as "Tontos utiles" (useful fools). The tontos utiles are again trying to manipulate us. Are we gullible enough to believe there is no Soviet-Cuban threat or any legal democratic resistance against the so-called Sandinistas?

Since 1979, the 70,000-member Nicaraguan army has been backed by Mi-24 "flying tanks" (helicopters), the same weapons used to commit genocide on the people of Afghanistan and Angola.

Other weapons in the Sandinista arsenal are Mi-8 troop carrier helicopters, T-55 medium tanks with flatbed trucks and ferries to transport them. PT-76 light amphibious tanks. The PT-76 can cross rivers and can be used to secure beachheads while T-55's are shuttled across. Honduras has an air force to

deal with that, but Costa Rica does not.

Also in this arsenal are BTR-60 armored personnel carriers, 152 mm howitzers, field kitchens, mobile maintenance workshops, gasoline tankers, thousands of Soviet and Soviet bloc troops—not to mention the FLO and the Libyans.

Would Comrade Danny (Ortega) and his storm troopers be content to stay within their borders after the Coniadora is signed? No! History notes that not one Leninist government has ever signed anything and lived up to its promises.

Write your congressman. Demand the withdrawal of all Soviets, Cubans and their terrorist allies from Nicaragua. Demand the support of democratic resistance there, and everywhere anti-Soviet liberation movements flourish.

— Jeff Thomason, Murphysboro.

## Living Proof that Guns Don't Kill People

## Halloween can be made safe if boredom can be prevented

By Ellen Cook  
Student Writer

### Viewpoint

In 1980, Carbondale's annual Halloween celebration consisted of about 10,000 people who gathered on Illinois Avenue to drink and show off their finery. Five years later the event has turned into a near riot, with some of an estimated 25,000 revelers throwing full cans of beer into the crowd, causing both property damage and personal injury.

In an effort to combat the growing violence, the City Council has proposed a can ban for this year's celebration to complement the 1980 bottle ban, which was designed to tone down the celebration and maintain safety.

If the City Council wants to make this year's event safer and more enjoyable, they should spend less time arguing about whether to implement a can ban and more time trying to avert the need for one. This means solving the basic problem with the Halloween celebration itself—boredom.

**THE FIRST** step in this process was taken in 1983 when the City Council proclaimed Halloween weekend "City Fair Days," which included

opening East Grand Avenue up with food and beverage booths and an entertainment stage. The addition of the Grand Avenue attractions diverted some people away from the overly crowded Illinois Avenue and spread the potentially violent crowd a bit thinner. Still, the problem remains of what to do to occupy the interest of the remaining throng. The city and the University need to work together to find a solution.

SIU and the city have already proven that they can cooperate in the matter. Last year, the Student Programming Council sponsored bands that played Friday and Saturday nights and, with the Chamber of Commerce, co-sponsored a costume contest. These events helped change the party atmosphere in a positive way.

**A COMMITTEE** should be formed consisting of city and University administrators, students and area residents who would decide what type of activities could be presented to fairgoers that would be both

entertaining and economically feasible. SIU's own Springfest, which offers contests and special events, could be used as a model.

Since the bands on Grand Avenue have proven to be a big crowd attraction, opening stages at different corners of the fair area, each featuring a different style of music, such as rock, jazz, reggae or country, may prove effective in entertaining the crowds and diverting their attention away from Illinois Avenue, where boredom there may turn to violence.

**MORE AND** more people are coming to Carbondale for the Halloween celebration enticed by the event's "party" reputation. Many are disappointed when they arrive at the party to find only a few events and a celebration consisting of standing around getting drunk and rowdy. Instead of allowing the event to become an embarrassment, the city and the University should work together to make the celebration an asset to the community.

Halloween weekend needs to become what it was originally intended to be—a time of fun and relaxation, not of monotony and violence.

## Are millions committing murder?

Everyday, around the world, hundreds of millions of men and women are committing murder.

They are, in effect, killing potential human lives through their grossly wicked and reprehensible actions. Through the sacrilegious acts of menstruation, masturbation and (just thinking about it makes me quiver with revulsion) the use of birth

control devices, these heinous heretics are preventing millions of ova and billions of sperm from doing what God intended them to do—join and make babies.

If some of these hell-bound criminals could see an unfertilized human ovum silently screaming as it is wasting away, or a wriggling sperm dying a painful death in a pool of spermicidal jelly, they

might change their vile ways before it's too late.

To avoid God's wrath, we must elect moral men like Jerry Falwell and Pat Robertson to enact legislation that will force these satanic dupes to do what is morally correct. Do not sit around and ignore this genocide any longer—take action. — Bill Hartley, junior, Physics.

## Editorial Policies

Signed articles, including letters, Viewpoints and other commentaries, reflect the opinions of their authors only. Unsigned editorials represent a consensus of the Daily Egyptian Editorial Committee, whose members are the student editor-in-chief, the editorial page editor, a news staff member, the faculty managing editor and a Journalism School faculty member.

Letters to the editor may be submitted by mail or directly to the editorial page editor, Room 1247 Communications Building. Letters should be typewritten, double spaced. All letters are subject to editing and will be limited to 500 words. Letter of less than 250 words will be given preference for publication. Students must identify themselves by class and major, faculty members by rank and department, non-academic staff by position and department.

Letters submitted by mail should include the author's address and telephone number. Letters for which verification of authorship cannot be made will not be published.

# Reagan says America's borders are put 'at risk' by Sandinistas

WASHINGTON (UPI) — In a last-ditch plea for aid for the rebels in Nicaragua, President Reagan warned Tuesday the danger of a Soviet base near America's borders worsens daily as "we debate and debate and debate."

In a midday Oval Office speech aimed primarily at the Democratic-led House, which has spurned recent aid requests, Reagan appealed for bipartisan support for his Central American policy, and, addressing those who might accuse him of "fear-mongering," asked, "Do we want to be the first elected leaders in U.S. history to put our borders at risk?"

Pledging his willingness to accept any diplomatic settlement that ensures "real democracy" in Nicaragua,

Reagan asserted the Contra rebels are a military force that "can win," and acknowledged some "intolerable" abuses of human rights by the Contra forces — abuses he vowed to eliminate.

If the Contras succeed in toppling the Marxist government of Daniel Ortega, he said, "The United States will not permit this democratic revolution to be betrayed, nor allow a return to the hated repression of the Somoza dictatorship."

The House, which rejected a \$100 million aid package for the rebels on a 222-210 vote March 20, is to vote on the issue again Wednesday. The Republican-controlled Senate has approved a similar aid plan and the House debate

pivots on what sort of strings to attach to the military portion of the package.

The aid package would provide \$70 million in military supplies and would mark the first time Congress has allowed the administration to send arms to the Contras since it voted to cut off the flow of weapons in 1983. Money for non-lethal supplies, such as medical equipment, provided by Congress last year is on the verge of running out.

Reagan had hoped to speak before the House, but his bid was refused Monday by House Speaker Thomas O'Neill, D-Mass., who said such a presidential appearance in the chamber would be an "unprecedented" attempt to lobby for legislation.

## Nicaraguan official says aid won't help

MANAGUA, Nicaragua (UPI) — Vice President Sergio Ramirez said Tuesday House approval of \$100 million in aid to Contra rebels would cause more suffering in Nicaragua but predicted it would fail to "change the balance of the war."

The House is scheduled to vote Wednesday on a \$100 million military and "non-lethal" aid package for Nicaraguan rebels, known as

Contras.

"The counterrevolutionary forces are already defeated," Ramirez said. "Any kind of financial aid to the terrorists will cause more suffering, killing and destruction, but it is not going to change the balance of the war."

In Washington, President Reagan addressed Congress from the Oval Office, asking representatives to support his request for renewed military

aid in order to protect strategic U.S. interests in the region.

The rebels have received from Washington at least \$130 million, first covertly and then openly, since they began fighting from Honduras and Costa Rica in 1982 to topple the leftist Sandinista government.

Contra leaders and Western diplomats have said the rebels are doomed if they do not receive military aid.

## Soviet defectors reunited with son after 18 years

STOCKHOLM, Sweden (UPI) — Eighteen years after defecting from the Soviet Union, Dmitri and Karin Mayanov — a retired couple in their 70s — stood weeping for joy on the dock at Stockholm harbor Tuesday as the son they left behind stepped off a ship to begin a life of freedom in the West.

"Alfred! Alfred!" the aging parents called as their 48-year-old son strode ashore from the Soviet passenger ship Ilyich in the morning sunlight.

Alfred Nayanov hugged his parents for the first time since they defected to Sweden while on a trip to Finland in 1963.

"The sun is shining on us," the gray-haired father exclaimed, tears rolling down his wrinkled face. "This is the biggest day in our lives. Finally our son, Alfred, may live on free Swedish soil."

It was a rare family reunion allowed by the Soviet Union after years of street protests outside the Soviet consulate in Goteborg by the couple and quiet diplomacy by the Swedish foreign ministry.

Karin Nayanov, born in Finland, said she was captured by Soviet soldiers as an alleged spy in 1932 while picking berries close to the Finnish-Soviet border. She was put to work at a power plant in the Soviet Union where she met her Russian husband.

The Nayanovs, now Swedish citizens who are retired, said they will take their son to their west coast hometown Wednesday.

But just before Prime Minister Ingvar Carlsson left in April on the first official trip to Moscow by a Swedish leader in 10 years, the Kremlin said Alfred Nayanov, a metal worker of Riga, Latvia, would get the exit permit he had requested for years.

# Lawsuit prompts investigation into Contras

By Mary Wisniewski  
Staff Writer

A \$24 million lawsuit against 30 people connected with Nicaraguan Contra leaders has prompted a nationwide call by peace organizations for an investigation into Contra activities.

Local peace organizations including Southern Illinois Latin American Solidarity Committee, People Living the Dream, and the Peace Coalition of Southern Illinois, held a press conference on the Contra issue Friday at the Interfaith Center, 913 S. Illinois Ave.

THE LAWSUIT was filed by the Chrisc Institute, a private law firm in Washington, D.C., on behalf of American journalists Tony Avirgan and Martha Honey.

Avirgan, a former cameraman for ABC-TV news, was among two dozen people injured on May 30, 1984, when a bomb exploded at a press conference held by former Contra leader Eden Pastora at La Penca, Nicaragua. Eight people, including three journalists, were killed at the conference. Pastora was slightly injured.

IN ITS WRITTEN summary of the lawsuit, the Chrisc Institute alleges that the La Penca bombing was part of a "whole scheme of actions planned and carried out by Contra leaders" to build a "Southern Front" in Costa Rica.

The suit said Pastora resisted an "ultimatum" from the CIA to coordinate with

other guerilla forces.

Georgann Harzog of the Southern Illinois Latin American Solidarity Committee said that the Contras hoped the Sandinista government would be blamed for the bombing. "They had hoped for a Libya-like strike or an invasion of Nicaragua."

HEDY SHERMAN of the Peace Coalition of Southern Illinois said that one focus of the investigation is the whereabouts of the \$27 million in humanitarian aid granted to

the Contra forces by Congress in September 1985.

"There is a trail of financial irregularities," Sherman said. She said that half the \$27 million cannot be accounted for by the Government Accounting Office.

"We must investigate where that money is before we give them another \$100 million," Sherman said.

THE BID FOR \$100 million in aid was denied by the House of Representatives April 16.

The request will come up for vote again sometime this week.

Tied to the investigation of the \$27 million is an investigation of Contra war activities. David Christensen, a retired SIU-C professor of geography who visited Nicaragua as a Witness for Peace last July, said that the Contras target civilians and "mutilate and torture their victims."

"Taking prisoners does not happen," Christensen said.

"All prisoners are either killed or kidnapped for the Contra forces," he said.

CHRISTENSEN added that the Contras attempt to weaken the Nicaragua government by "disrupting civilian life and property and by targeting such government workers as teachers and other civil servants."

"Those criminals have not handled the \$27 million well," Christensen said. "We don't want to give them another \$100 million."

## Street Machine Nationals to show at DuQuoin

By Maureen Cavanaugh  
Entertainment Editor

Three thousand custom and "tricked up" cars, trucks, and specialty vehicles from 1949 to present day will be on outdoor display Friday, Saturday and Sunday at the 10th annual Street Machine Nationals at the Du Quoin State Fairgrounds.

Also, a 1966 Pro Street Nova will be given away.

Friday and Saturday shows will be from 9 a.m. to 7 p.m. The Sunday show will be from 9 a.m. to 4 p.m.

Live music by the Rockaholics will be played Friday and Saturday beginning at 3 p.m. at the main stage. A water ski show will be conducted Saturday at 2 p.m. and a boat race Sunday at 12:30.

Tickets will be on sale at the gate for \$6 for adults and \$2 for children ages 6 to 12. Children under the age of 6 will be admitted free of charge. Advance sale tickets will be \$5 and are available at Kroger Food Stores and Linkin Auto Part Stores.

## Medical examiner confirms use of cocaine in Bias death

BALTIMORE (UPI) — Maryland basketball star Len Bias died of a heart attack triggered by "cocaine intoxication," a medical examiner said Tuesday, and university officials said they welcomed a grand jury probe of the death.

Bias, an All-America selection and the second player chosen in the NBA draft, died of "cocaine intoxication which interrupted the normal electrical control of his heartbeat, resulting in cardiac arrest," said Dr. John Smialek, the state medical examiner.

Bias, up all night in his dormitory room celebrating his selection by the Boston Celtics and a \$1 million shoe endorsement contract, may have been using the drug for one of the first times, Smialek said.

Cocaine in the 6-foot-8 forward's blood measured 6.5 milligrams per liter.

"This concentration might not kill one individual," Smialek said, "but a lower level could kill another."

Smialek said the autopsy uncovered no evidence of any previous drug use by Bias, who comes from a deeply religious family. He said police will test the purity of the drug.

"Due to the ongoing investigation of the circumstances surrounding the death, the manner of death is ruled undetermined at this time," Smialek said.

Bias, 22, collapsed in his dormitory room early Thursday and was pronounced dead two hours later at a nearby hospital.

"There's no surprises there at all," said Prince George's County state's attorney Arthur

Marshall, who said Monday he would convene a grand jury to compel testimony from former Maryland teammates and others who were with Bias when he died.

"Anybody that takes a damn straw to their nose ought to think it can happen to me if it can happen to Len Bias," Marshall said.

The state's attorney said as many as 12 people, including Maryland basketball players Terry Long and David Gregg, may be called before the grand jury, and the person responsible for supplying Bias with the drug could be charged with manslaughter.

The grand jury is expected to start reviewing evidence next Tuesday.

"We don't plan to give immunity to anyone who brought

See BIAS, Page 11

## West selects Diane Daugherty as SIU-C's new women's golf coach

Saluki women's athletics director Charlotte West has hired Diane Daugherty as the new Saluki women's golf coach.

Daugherty, a 30-year-old native of Centralia, Mo., replaces Sonya Stalberger, who resigned to enter private business in Indianapolis.

Daugherty was a Top 10 money winner on the 1985 Futures Golf Tour and previously served as the head volleyball and softball coach at Stephens College in Columbia, Mo.

"I'm excited that our program has attracted someone with Diane's experience and ability," West said. "She has much maturity due to her years in coaching, and her personal talents in golf will be a great asset. She has a winning personality that will ensure a warm reception in our community."

Daugherty, who has played professionally on the Futures Tour since September 1983, won the Golf Hammock Invitational at

Diane Daugherty

Sebring, Fla., in January 1985.

But her pro career came to a halt recently following knee surgery and Daugherty has been undergoing rehabilitation while serving as a club fitting specialist the last five months in Tucson, Ariz.

Daugherty, who played on the golf and basketball teams for four years at Stephens and received her

bachelor's degree in 1978, is familiar with SIU-C. As a freshman at Stephens, she won the 1974 SIU-C Golf Invitational.

"The SIU tournament was the first one I ever played in at college, and I won," Daugherty said. "I probably won 10 or 12 tournaments while at Stephens but that's the one I remember best. We played at Jackson Country Club and the weather was chilly."

"I can't remember how many strokes I won by but I loved the course. Of course, you always do, when you win."

"I can't wait to get started at SIU," she said. "The program has wonderful potential. We're already Gateway Conference champions and have a solid foundation to build upon. So much impressed me in Carbondale — the beauty of the campus, the dedication of the athletics staff to the University. I found strong support for SIU from everyone I met."

Cincinnati Storm coach Jim Kindt

## Storm mentor Kindt enjoys Southern trip

By Steve Merritt  
Assistant Sports Editor

Jim Kindt, the 19-year coach of the Cincinnati Storm, likes Southern Illinois. He likes the University, he likes SIU-C baseball coach Richard "Itchy" Jones and he likes the way the game of baseball is played in Southern Illinois.

"We really enjoy coming to the Southern Illinois area," Kindt said Thursday before squaring off against Harrisburg's American Legion team at Abe Martin Field. "People down here take the game seriously and they play hard and fair. We know we're going to be treated right when we come down here."

Kindt brings the Storm, a collection of Cincinnati's finest 17- and 18-year-old baseball players, to Southern Illinois every summer to play area legion teams.

As commissioner of the National Senior Baseball Committee and the state representative for Ohio's Babe Ruth League, Kindt has some solid baseball connections and the collection of responsibilities keeps him busy with those associates all year long.

"It's a full-time job," Kindt said. "A two week vacation in the fall and it's back to business."

Kindt made one connection, a connection that turned into a long-lasting friendship 17 years ago while traveling through Southern Illinois as a sales representative. He happened to drive through Carbondale on Jones' first day on the job.

"I make it a habit to drop by and introduce myself to college coaches when I'm traveling," Kindt said. "I've known 'Itchy' since his very first day on the job."

And when talking to Kindt, if one was to look past the difference in voice and stature, one might mistake Kindt for Jones — they both are very

likeable, with twinkling eyes, a lighthearted sense of humor and the same pleasant way of speaking. And both know the game of baseball.

The Storm are playing with authority, and may be doing better than Kindt expected. After sweeping four games from area legion teams, the Storm returned to Cincinnati Friday and swept a pair of weekend doubleheaders to improve their record to 31-2.

But winning baseball games is Kindt's job and in the last 18 years, he's racked up an impressive record of 932 career wins against 227 losses. Add that to this year's mark and Kindt has a winning percentage of over .81 percent. During that span, the Storm has won three Babe Ruth World Series titles. Last year the Storm finished second in the nation, which was preceded by a Palmino

# Connors ousted at Wimbledon

WIMBLEDON, England (UPI) — Jimmy Connors suffered the most stunning loss of his distinguished career Tuesday, falling in the opening round of Wimbledon to strong-serving Robert Seguso.

Connors, 33 and seeded third, who has been toying with the idea of retirement, got an unwelcome push in that direction when he was eliminated by Seguso, 6-3, 3-6, 7-6 (7-5), 7-6 (10-8).

It marked the first time since the 1972 U.S. Open that Connors was eliminated in the

first round of a Grand Slam championship, and he was knocked out by a man he had beaten little more than a week ago at Queen's Club.

"Let me make my own decision on whether I'll play anymore or not or whether I play at Wimbledon again," Connors said when pressed to disclose his plans. "It's not for you to worry about. It's only my concern."

While favorites Ivan Lendl, Martina Navratilova and Chris Evert Lloyd were

straight-set winners, four seeds were eliminated along with Connors on a day when the sun made occasional appearances over the All England Club.

Among the seeded victims was No. 5 Pam Shriver, who fell to Betsy Nagelsen, 4-6, 6-3, 6-4. Following her first loss in eight meetings against Nagelsen, Shriver was able to joke, in a reference to the Lloyds, "There's only one thing to do — take John away from Chris and start a family."

## Carbondale hosts Marion in Legion play

Carbondale American Legion baseball team Post 514 hosts Marion on Wednesday night at Williams Field. Gametime is 7:30 p.m.

Carbondale coach Chuck Reno will send pitcher John Jarvis (3-0) to the mound against Marion. Going into Tuesday's game at West Frankfort, Carbondale had a 6-

2 record in the district and was 6-3 overall.

Reno's squad has won its last three games — defeating Murphysboro (6-1), Herrin (13-10), and Du Quion (6-5).

Carbondale's winning streak has been sparked by versatile outfielder-catcher Chris Grenfell. He went four-for-five and had three RBI's against

Herrin and had two hits against Du Quion to raise his batting average to .333.

Following the game with Marion, Carbondale plays in the Paducah Tournament in Kentucky on Saturday and has a road game with Zeigler on Sunday before facing Anna at home on July 2.

## Region 8 team chosen

Two current SIU-C basketball players — Anne Thouvenin and Cathy Kampwerth — and two former players — D.D. Plab and Char Warring — have been selected to the Region 8 open division women's basketball team for the upcoming Prairie State Games.

Thouvenin and Kampwerth played key roles in helping the Salukis notch a 25-4 record and qualify for their first-ever NCAA tournament appearance.

A 5-foot-6, 140-pound sophomore forward, Thouvenin started nine of 21 games and averaged 5.2 points and 1.6 rebounds. Kampwerth, a 6-foot-4, 170-pound reserve center, averaged 4.3 points and 3.1 rebounds in her freshman year.

Warring and Plab were four-year starters for the Salukis from 1981-1984. Warring, a forward, is the Salukis' all-time leading scorer with 1,530 career points while Plab, a point guard, finished as the Salukis' all-time leader in assists with 508.

## BIAS, from Page 9

drugs into that room," Marshall said. "There could be manslaughter charges if you bring drugs in that room."

John Slaughter, chancellor of the University of Maryland's College Park campus, released a statement Tuesday pledging the school's full cooperation with the grand jury.

"We want to get to the heart of what happened to crush out the life of this young man at his very prime," Slaughter said, adding that the university welcomes the grand jury investigation.

"Not only do we just as you want answers to these many questions, but we are determined to learn what happened," he said.

Marshall had complained that those with Bias the morning he died had been uncooperative with police and that the basketball star needed medical attention as long as 30 minutes before roommates called an ambulance.

Later in the day after Bias died, Prince George's County police investigators searched a garbage dumpster outside the dormitory and found cut straws and papers that pointed to cocaine use, Marshall said.

## A Sweet Ideal

Place a D.L. Classified Ad 536-3311 "Do get results"

If you are an employee of the state of Illinois, June is decision month for you. Likewise if you work for any company whose health insurance enrollment period is still open.

This is the last chance this year that you'll have to choose health care for you and your family with the one health maintenance organization that really sets you free: Total Health Care, Inc.

**NOW YOU DON'T HAVE TO BE TIED TO A PLACE OF CARING THAT DOESN'T CARE.**

If you don't like the idea of crowded clinics, long waits, and short tempers, Total Health Care is your answer.

**RELEASED TO SEE YOUR OWN DOCTOR.**

With us, you're not hostage to whomever someone else picks out for you. Over 90 physicians in this area are now participants with Total Health Care. Chances are you see your own doctor in the privacy of your own doctor's office. And you and your doctor choose the specialists when they're required.

**MORE FREEDOM OF CHOICE FOR HOSPITALS AND PHARMACIES.**

Total Health Care gives you the right to choose the area's

most respected hospitals and pick out the pharmacies you prefer for your prescriptions. You don't have to go to a hospital miles away unless you and your physician determine it's the best choice.

**ESCAPE FROM CO-PAYMENTS.**

Unlike the State Basic Health Plan, Total Health Care eliminates co-payments for hospital room and services except for mental health and emergency room.

**FREEDOM FROM COSTLY DEDUCTIBLES.**

Total Health Care pays everything right from dollar-one. Under the State Basic Health Plan, you pay the first \$20 of every \$100 with rare exceptions. That means with Total Health Care you could save hundreds in deductibles every year.

**STAY WELL, TOO, AND STAY COVERED.**

Total Health Care wants to

help you avoid trouble, too. So we give you 100% coverage on checkups, shots for the kids, hearing and vision screening, physical therapy, surgery, well-baby care, X-rays and lab tests.

**CUT THROUGH ALL THE PAPERWORK.**

We'll help you eliminate all the claim forms - the work, wait and worry with them. With Total Health Care, you come out virtually paperwork-free.

**THE SAVINGS ARE A REAL BREAK, TOO.**

Compare Total Health Care to similar high-option choices under the State Basic Health Plan or other HMO options. You'll find our costs fully comparable or actually lower.

**ASK YOUR OWN DOCTOR. OR CALL US AT 993-2263 OR 549-4343 IN CARBONDALE.**

Chances are your doctor is associated with Total Health Care now or soon will be. If you appreciate a plan that appreciates you and your freedom of choice, freedom from problems and unnecessary expenses, cut yourself loose before it's too late - tell your employer you want Total Health Care now.

## THERE'S A HOSTAGE CRISIS IN SOUTHERN ILLINOIS YOU COULD SOLVE BY JUNE 28TH.

## PARTNER, from Page 1

viewed by the company as the most "expeditious" way of meeting its needs, Chisholm said.

He said the company hopes the students and faculty who take part in the project will plant operators identify technical problems and increase job security and satisfaction among the plant's 400 union and 65 company employees.

Gutteridge said the agreement will in turn provide opportunities for business, engineering and technical students and faculty to do research and get experience.

John Guyon, vice president for academic affairs, said the involvement of universities in economic development is "a growing national trend." In his view, he said, the move to aid businesses is the most positive thing going on in universities today.

Although this is the first such agreement the University has signed, Guyon said it could open the door for similar agreements with other businesses in the region.

The programs initiated under the agreement will be monitored by a steering committee that will have an equal number of University and Allen representatives. Gutteridge will chair the steering committee.

Kenneth Tempelmeyer, dean of the College of Engineering, said the acoustic equipment Allen will provide to the University under the agreement is for testing sound absorption. He said it will be located on campus, operated by students and faculty and made available to companies in Southern Illinois, including Allen Industries.

Allen's plant in Herrin manufactures interior trim

and sound deadening materials for automobiles. Allen Industries is a division of Dayco Corporation of Dayton, Ohio.

## EAGLE, from Page 1—

August.

The two pairs of eagles were first observed building their nesting sites in December 1965. Bolander said when the nesting sight at Grassy Bay was discovered refuge managers closed the part of the lake adjacent to the nest to prevent disturbances that might cause the eagles to leave.

Bolander said they had hoped the pair would mate, but in late February, the female eagle disappeared. In March, however, the female reappeared.

## Lack of bids suspends newsprint recycling

By Toby Eckert  
Staff Writer

Carbondale's newsprint recycling program has been temporarily suspended because of a lack of bids to operate the franchise.

The program was referred to the Community Development Department's Housing and Energy Division Monday night for further study after the city's unsuccessful attempt to solicit bids for the program from nine area waste management firms.

Donald McWhorter, the most recent franchiser, told city officials he would not seek renewal of his contract with the city. McWhorter pointed to a depressed market for recyclable newsprint, claiming the cost of collecting newspapers cost his company more than the papers are worth.

The program requires city residents to separate newsprint from other household refuse, tie it in bundles of 25 pounds or less and place it at curbside for pickup during the first full week of the month.

City refuse collectors have been directed to pick up bundles of newsprint set out by people who are unaware of the end of the recycling program.

Mayor Helen Westberg said she was "disappointed but not surprised" by the lack of bids for the program since city

officials had known of the slump in the recyclable newsprint market for some time.

City Manager Bill Dixon said the city was "by no means" giving up on the project and urged city residents to participate in newsprint collection drives by non-profit organizations.

"I'm not sure that effort by non-profit organizations helped our efforts," Westberg added, "but nevertheless, it keeps the interest in recycling alive."

In other action Monday, the City Council:

— Passed a resolution commending outgoing Fire Chief Charles J. McCaughan for his 25 years of service to the city and declaring June 30 as Charles J. McCaughan Day in the city.

— Gave final approval to a request by American Gas & Wash of Marion to rezone the south side of East Walnut Street. The rezoning will allow the company to construct a convenience store, self-service gas station and car wash on the property.

— Postponed action on the proposed rezoning of a portion of West Main Street to a new professional administrative-residential designation after several residents of the area voiced concern about the move.

## Pepsico, Seven-Up merger bubbles, then fizzes out

NEW YORK (UPI) — Philip Morris Co. said Tuesday it has terminated its agreement to sell Seven-Up Co. to Pepsico Inc.

Termination of the deal, which had carried a price tag of \$300 million, follows last week's decision by the Federal Trade Commission to oppose the sale on the grounds that it would reduce competition in the soft-drink industry.

Philip Morris said it intends

to sell Seven-Up's worldwide beverage franchise business, but until it does, it will support the soft-drink company's brands in the marketplace.

Philip Morris also said it is considering several offers for assets of the Seven-Up Co. that were not included in the canceled sale to Pepsi. The other assets include 12 soft drink facilities in the United States and Canada and the company's food group.

## Sunset Concert features E.I.E.I.O.

E.I.E.I.O., an northern Illinois-based band, will be featured at the Sunset Concert at 8 p.m. Thursday in front of Shyrook Auditorium.

Labeled as a "country punk" band, E.I.E.I.O. has opened for acts such as the Violent Femmes, Los Lobos and the Del Fuegos. The band is currently promoting their new album "Land of Opportunity," which was released on Frontier Records.

The Sunset Series is sponsored by the Student Programming Council, the Student Center and the Carbondale Park District. Rain location is at the Student Center.

## Language test applications due

Applications for the English as a Foreign Language Test of Spoken English must be in Princeton, N.J., by June 30. The test will be given on August 2. For more information, call Mary Mace at Testing Services, 536-3303.
